

**ADVANCED LEVEL INSTITUTIONAL BIOTECH HUB,  
HANDIQUE GIRLS' COLLEGE, GUWAHATI**

- 1. Name & Address of the Institution:** Handique Girls' College, Guwahati-781001, Assam
- 2. Chairman:** Dr Ranjit Sarma, Principal, Handique Girls' College.
- 3. Name of the Coordinator:** Dr. Uday Sankar Senapati, Assistant Professor, Department of Physics.
- 4. Level of the Biotech Hub:** Advanced Level Institutional Biotech Hub
- 5. Date & Year of the sanction of biotech hub with DBT's Sanction Order No:** BT/04/NE/2009 dated 21.09.2010

**STAFF:**

Name: Tandralee Katakai

Designation: Junior Research Fellow

Qualification: M.Sc (Microbiology)

Name: Harshita Kalita

Designation: Laboratory Assistant

Qualification: M.Sc (Microbiology)

### **A brief on Biotech Hub:**

The Institutional Biotech Hub of Handique Girls' College was established in 2011 and was among the first batch of Biotech Hubs sanctioned by the DBT, Government of India. The sanction of the Hub was greeted with lot of enthusiasm by the entire college. It was the able leadership of former Principal of the college Dr Indira Bardoloi who granted all administrative support and Dr Utpal Dutta, then senior faculty of zoology and present Principal of the college, whose tireless effort has made it possible to establish such a national standard biotech laboratory in the college. Within the limited space of the college, Dr Dutta could set up a laboratory with international standard instruments to work on genomics, proteomics, and immunology. Since then, the Hub has become an integral part of science learning and research in the College and has fostered interdisciplinary. The Hub has been instrumental in providing students with an exposure to modern tools and techniques of biology and today students of the college, not only read about PCR, ELISA and other such tools in the textbooks but are able to benefit from a practical exposure. Students both at undergraduate and postgraduate level could learn biology through research base learning and has become able to expose themselves with molecular biology techniques of tissue protein extraction, DNA isolation, DNA amplification through the PCR, PAGE, Agarose gel electrophoresis and Gel analysis. This has made biology learning more attractive and has also engendered interdisciplinary, with Departments of Chemistry and Physics coming forward to carry out joint projects with the Life Sciences, using Hub resources. The Hub infrastructure has supported the College in opening one of the first undergraduate study programs in Microbiology under the Gauhati University, and also postgraduate programs in Botany, Chemistry and Zoology. The Hub is supporting faculty research, undergraduate projects and M.Sc. Dissertation work. There are also Ph.D. scholars who use the facilities. Furthermore, the Hub facilities are made available, on request, to users from neighboring institutes which enhances inter-institutional co-operation.

**Completed project:**

**Title of the project:** Establishment of Institutional Biotech Hubs (IBT Hubs)

**Sanctioned project cost:** 75.41 lacs

**Duration:** 8 years

**Funding agency:** Department of Biotechnology, Govt. of India

**Date of commencement of project:** 21/09/2010

**Date of completion of project:** 19/06/2019

**Principal Investigator:** Principal, Handique Girls' College

**Ongoing project:**

**Title of the project:** DBT-NER Advanced level Institutional Biotech Hub at Handique Girls' College, Guwahati focusing on Targeting bacterial biofilms with polyphenol-loaded and silver-doped zinc oxide nanoparticles: prospects for agro- horticultural application (Phase-II).

**Sanctioned project cost:** 57.76 Lacs

**Duration:** 3 years

**Funding agency:** Department of Biotechnology, Govt. of India

**Date of commencement of project:** 21/02/2023

**Principal Investigator:** Dr. Uday Sankar Senapati, Assistant Professor (Stage-III), Department of Physics, Handique Girls' College.

**FACILITIES: (List of Equipments procured under the Biotech Hub since its inception):**

<b>Sl. No.</b>	<b>Name of the equipment</b>	<b>Model No. &amp; Brand Name</b>	<b>No. of researchers/ students utilized these Equipments</b>
1	Gradient Thermal Cycler	MyCycler, BioRad	86
2	Horizontal Electrophoresis	Mini Sub Gel GT, BioRad	111
3	Vertical Electrophoresis	Mini-Protean Tetra Cell, BioRad	70
4	Gel Doc System	EZ System, BioRad	239
5	Long-wave UV Penlight	BioRad	78
6	1 KVa UPS	Better Power	239
7	Microplate Reader	iMark, BioRad	28
8	Refrigerated Centrifuge	5424 R, Eppendorf	135

## RESEARCH ACTIVITIES

### PhD awarded utilizing the Hub infrastructure:

- i. Dr. Innifa Hasan, Assistant Professor, Department of Zoology: 2010-16; Thesis title: Assessment of genetic diversity of certain species of *Mystus scopoli* (Pisces: Bagridae) in Assam.
- ii. Dr. Merina Das, Don Bosco School, Guwahati; 2010-16. Thesis title: Genetic diversity Assessment of certain species of Belontiidae fish family of Assam, India.
- iii. Dr. Uday S. Senapati, Assistant Professor, Department of Physics: 2010-16; Thesis title: Synthesis and characterization of ZnS nanoparticles prepared by green chemical routes.
- iv. Dr. Bhavna P. Baishya, Assistant Professor, Department of Zoology, Assam Don Bosco University: 2011-2015; Thesis title: Studies on certain aspects of innate immunity, both cellular and humoral of Muga Silkworm, *Antheraea assama* Westwood.

## BENEFICIARY OUTSIDE INSTITUTIONS

### Major areas of work done by the beneficiaries-

- DNA Isolation
- PCR
- Gel Electrophoresis
- Antimicrobial Assay
